www.verticalevents.com.au

Altech Chemicals Ltd (ASX:ATC)

Altech Chemicals Ltd is aiming to become one of the world's leading producers of 99.99% (4N) high purity alumina (HPA) (Al₂O₃) through the construction and operation of a 4,500tpa HPA plant at Tanjung Langsat Industrial Complex, Johor, Malaysia. Feedstock for the HPA plant will be sourced from the Company's 100%-owned kaolin deposit at Meckering, Western Australia. HPA is a high-value, high margin and highly demanded product as it is the critical ingredient required for the production of synthetic sapphire. www.altechchemicals.com

Ardiden Ltd (ASX:ADV)

Ardiden Ltd is an emerging exploration company possessing an asset portfolio of projects located in the established mining jurisdiction of Ontario, Canada. Ardiden is seeking to generate shareholder wealth by identifying, acquiring and developing mineral projects in any jurisdictions that possess the potential for cashflow and growth. For more information visit: www.ardiden.com.au

Aura Energy Ltd (ASX:AEE)

Aura Energy has gold, uranium and vanadium projects. The DFS for its Tiris Uranium Project with very low capital and operating cost just completed. Scoping Study for its Håggån Vanadium Project also complete. It therefore has 2 de-risked projects – rare for a junior miner. It's excellent gold, base and battery metal exploration tenements are adjacent a 20Moz deposit. For more information visit: www.auraenergy.com.au

Black Rock Mining Ltd (ASX:BKT)

Black Rock Mining Limited has a 100% interest in the Mahenge Graphite Project located in Tanzania. The Project has a JORC compliant Mineral Resource Estimate of 212m tonnes at 7.8% TGC. It also has Ore Reserves of 70m tonnes at 8.5% TGC. The Ore Reserves support a mine life of up to 350k tonnes of graphite per annum for a reserve life of 16 years. For further information, please visit www.blackrockmining.com.au

Blackstone Minerals Ltd (ASX:BSX)

Blackstone Minerals Ltd is an exploration company actively exploring the Ta Khoa Nickel Project in Vietnam which operated as a mechanised underground mine from 2013 to 2016. Blackstone's high-grade Little Gem Cobalt-Gold project in British Columbia, Canada BC Cobalt Project has 48 km of untested strike potential of geology analogous to the world class Bou-Azzer primary Cobalt district in Morocco. For more information visit: www.blackstoneminerals.com.au

Carpentaria Resources Ltd (ASX:CAP)

The Company has a majority interest in the Hawsons Iron Project. Prefeasibility study results have shown that Hawsons is capable of producing the world's highest-grade iron product (70% Fe). Independent experts have also outlined competitive costs for the project within the first quartile of the global iron ore cost curve, aided by Hawsons' uniquely soft ore. Importantly, Hawsons is located just 60 kilometres south-west of the Silver City, providing access to established rail, road, port and power infrastructure. Visit: www.carpentariares.com.au

Cygnus Gold Ltd (ASX:CY5)

Cygnus Gold is targeting the discovery of gold and base metals deposits in the Wheatbelt region of W.A. The Southwest Terrane is a package of high metamorphic grade rocks forming part of the well-mineralised Yilgarn Craton. In addition to its 100% owned projects, Cygnus is managing exploration on two significant earn-in agreements and two joint ventures with Gold Road Resources Limited (ASX: GOR). Gold Road is also a major equity shareholder in Cygnus – a strong endorsement of Cygnus' team and strategy. Visit: www.cygnusgold.com

Galan Lithium Ltd (ASX:GLN)

Galan Lithium believes that the emerging battery minerals sector provides exceptional upside for investors. The key focus of the Company is in its mining tenements, located in the world class lithium bearing Hombre Muerto salt flat in the province of Catamarca, Argentina. Galan Lithium, through its Managing Director and founder Mr. Juan Pablo Vargas de la Vega, has had a long association in the mining industry in Australia and Latin America and in particular within the lithium sector. For more details, visit: www.galanlithium.com.au

Galileo Mining Ltd (ASX:GAL)

Galileo is a well-funded and active exploration company focussed on its highly prospective Fraser Range and Norseman projects in Western Australia. The Fraser Range is known for the world class Nova nickel-copper-cobalt mine owned by Independence Group Limited. Galileo's northern Fraser Range tenement is 80km from the operating Nova mine while the southern tenements are just 30km from the mine. For more information please visit www.galileomining.com.au

Kopore Metals Ltd (ASX:KMT)

Kopore Metals Limited is actively exploring its copper-silver prospects on the emerging world class Kalahari Copper Belt, in Botswana and Namibia. Exploration is targeting stratabound copper-silver deposits across its sixteen 100% owned prospecting licenses in Botswana and nine 100% owned prospecting licences in Namibia, for a total of 15,136 square kilometres of exploration ground. Kopore believes the Kalahari Copper Belt provides the potential for large scale discoveries. For more information, visit: www.koporemotals.com

Marenica Energy Ltd (ASX:MEY)

Marenica is an exploration company with two broad areas of focus, uranium exploration and application of its patented beneficiation process called U-pgrade™. Marenica has developed a three-pronged strategy for advancing the Company by exploring its own projects, acquiring projects in which U-pgrade™ can add value and applying U-pgrade™ to third party projects. For more information visit: www.marenicaenergy.com.au

Metalicity Ltd (ASX:MCT)

Metalicity Limited is a gold and base metals focussed exploration and development company. Metalicity is earning into the exciting Kookynie and Yundamindra Gold Projects, 60 kilometres south of Leonora in the Eastern Goldfields of Western Australia. Furthermore, the Company has an exciting pipeline of Projects within the Paterson through to the Musgraves, and in the northern area of the Fraser Range. For more information, please visit www.metalicity.com.au

**Meteoric Resources Ltd (ASX:MEI)**

Meteoric is targeting gold exploration at the Company's wholly owned Juruena and Novo Astro Gold Projects, located in the Alta Floresta Belt in Central Brazil. The Juruena Project contains an existing Global Mineral Resource Estimate (JORC 2012) of 1.3Mt for 261koz Au at 6.3g/t which comprises the high grade Dona Maria & Querosene resources - 436,000t @14.7g/t for 205,000oz Au and the large-tonnage, lower-grade Cretes resource with - 846,000t @2.0 g/t for 55,000oz Au. MEI is currently carrying out its maiden drilling program at Juruena and Novo Astro. www.meteoric.com.au

**Middle Island Resources Ltd (ASX:MDI)**

Middle Island Resources is an Australian gold exploration and development company. Middle Island's primary focus is the Sandstone Project in the East Murchison district of Western Australia, where the Company is progressing feasibility studies towards recommencing gold production. The project includes a 600,000tpa processing plant, 537,000oz in gold resources, and exceptional brownfields and Greenfields exploration targets. For more information visit: www.middleisland.com.au

Middle Island
RESOURCES LIMITED

Moho Resources Ltd (ASX:MOH)

Moho Resources Ltd is a exploration company which has acquired three fantastic assets in WA and QLD, with a strategic focus on Gold and Nickel. The company is spearheaded by a stellar management team with Terry Streeeter at the helm as Chairman, Shane Sadleir (MD) and Ralph Winter (Commercial Director). Moho has a world class technical team to drive their projects to discovery success. For more information visit: www.mohoresources.com.au

**Nusantara Resources Ltd (ASX:NUS)**

Nusantara Resources Limited owns a 100% interest in the Awak Mas Gold Project in Sulawesi, Indonesia through our wholly-owned subsidiary, PT Masmindo Dwi Area. The Project currently hosts an open pit Indicated and Inferred Resource of 45.3 Mt at 1.4 g/t Au for 2.0 Moz (May 2018) and an updated Ore Reserve of 1.1 Moz (September 2018). Nusantara has a highly experienced Board and Management Team. For more information visit: www.nusantararesources.com

**Pioneer Resources Ltd (ASX:PIO)**

Pioneer Resources Ltd is a dynamic, diversified exploration and development company with a focus on key demand-driven minerals in the Eastern Goldfields of Western Australia. Our project portfolio includes; the 100%-owned Pioneer Dome Project, where the Company recently completed mining Australia's first caesium deposit and is now drilling other caesium and lithium targets. For more details, visit www.pioneerresources.com.au

**Predictive Discovery (ASX:PDI)**

Predictive Discovery is focused on its 15 gold projects covering +6,000km² across West Africa's Birimian Greenstone Belt located in Burkina Faso, Cote D'Ivoire and Guinea. The Company's objective is finding large +2 million-ounce gold deposits with our prospect generator model providing a pipeline of continuous and early-stage exploration opportunities to maximise the probability of making multiple gold discoveries. For more information, visit: www.predictivediscovery.com

**Talisman Mining Ltd (ASX:TLM)**

Talisman Mining Ltd is an Australian mineral exploration company focused on creating value through the discovery of base and precious metals. Talisman's core projects are the Sinclair Nickel Project in WA and the Lachlan Cu-Au Project in NSW. Talisman recently announced the proposed sale of its 30% interest in the Springfield Joint Venture to Sandfire Resources for A\$72.3 million cash and a Net Smelter Return Royalty. For more details, visit: www.talismanmining.com.au

**Triton Minerals Ltd (ASX:TON)**

Triton Minerals Limited is an ASX listed emerging graphite producer with three world class graphite projects in the Cabo Delgado region of Northern Mozambique, arguably one of the world's best locations for graphite. The Board has approved development of our flagship Upulo (Ancuabe) Graphite Project and financing discussions to commence construction are well underway. For more information visit: www.tritonminerals.com

**Venture Minerals Ltd (ASX:VMS)**

Venture Minerals Ltd (ASX:VMS) has committed to recommencing the Riley Iron Ore Mine after the updated pre-feasibility study delivered strong returns from a low capex two year project, that is well positioned to capture the current higher iron ore price environment. This will see the Company transform from explorer to producer when it begins mining shortly.
